A close-up photograph of a cassette tape. The label is yellow with the text "AWESOME MIX VOL. 1" written in blue ink. The tape is partially inserted into the clear window, showing the reels and a yellow tape segment. The cassette has a black plastic body with orange and white horizontal stripes on the label area.

AWESOME MIX VOL. 1

Sampling as a concept is not new, but recording technologies have changed how we sample.

A digital audio interface (DAW) with a green screen and a grid of buttons. The device is white with a green screen at the top left displaying text. Below the screen is a grid of 16 large, square, grey buttons arranged in a 4x4 pattern. To the right of this grid is a circular silver knob and several smaller buttons, some of which are illuminated with green light. At the bottom right, there are two red buttons. The device is connected to a black cable at the bottom right. In the background, a turntable is partially visible.

**Digital technologies have made sampling practices faster and more accessible**
